HARISH KANNAN T S

QA AUTOMATION

8825652874 | harishk4078@gmail.com | www.linkedin.com/in/harish-t-s-306933225

SUMMARY

Accomplished software test engineer with 3 years of experience in software testing and quality assurance. Skilled in developing test plans and strategies for high-quality product launches, focusing on automation testing. Proficient in programming languages, automation frameworks, and tools for early defect identification and efficient development cycles. Experienced in Selenium Java, Playwright JS, API testing with Rest Assured, CI integration, and automating case management in Salesforce Service Cloud, dedicated to helping companies save time and reduce costs.

TECHNICAL SKILLS

Selenium Java	TestNG	Jenkins - CI
Playwright JavaScript	Cucumber BDD	GIT
Rest Assured - API Testing	Postman	Docker Containerization
Salesforce [Service Cloud]	JIRA/ALM	Browserstack

PROFESSIONAL EXPERIENCE

Perficient - QA Automation Engineer   **Nov 2023 - Present**

Healthfirst Insurance based company

- Streamlined QA processes by developing and maintaining automation scripts, contributing to faster release cycles.
- Implemented advanced automation frameworks such as Selenium WebDriver, optimizing code reusability and maintainability across projects.
- Performed API testing using Rest Assured. Developed and maintained automated test suites for Salesforce Service Cloud case management processes.
- Integrated automated tests with CI/CD pipelines (Jenkins, etc.).
- Enhanced product reliability with thorough regression testing

LTI Mindtree - Automation Test Engineer   **Jan 2022 - Nov 2023**

- In my role as an Automation Test Engineer at LTI Mindtree, I was tasked with developing automated test scripts, conducting automated tests, diagnosing issues, and maintaining the scripts to guarantee the software's precision and quality.
- Proactively identified potential bottlenecks in software workflows by conducting root cause analyses on recurring defects.
- Reduced manual testing efforts for faster product delivery with the creation of robust automated test scripts.
- Optimized test case execution by integrating test automation scripts into cloud-based platforms.

CERTIFICATIONS & AWARDS

- CSM, Scrum Alliance, 08/22, Certified Scrum Master
- Best Employee of the year award - LTIMindtree
- Udemy Courses - Selenium Java, Rest Assured
